

Student job: Web Programmer/Designer Position (10-20h/month) at the Quantum Device Lab, ETH Zurich

The Quantum Device Lab at the Department of Physics has an opening for a smart and talented student as a Drupal Web Programmer.

The position is to develop, enhance, and sustain the functionality and effectiveness of our group website (www.qudev.ethz.ch).

A successful candidate should have the following skills:

- Knowledge and experience in working with Content Management Systems
- Technical experience with HTML/ CSS
- Experience with PHP
- Willingness to learn Drupal, Bootstrap CSS-framework
- Experience with relational databases

If you want to work 10 - 20 hours/month for us on an hourly rate basis (“Hilfsassistent”) apply by email in German or English to Francesca Bay (fbay@phys.ethz.ch), including a cover letter and your CV. Consideration of applications will begin immediately and will continue until the position is filled.

For technical questions contact Pascal Müller (email: pamueller@student.ethz.ch), for general questions contact Dr. Francesca Bay (email: fbay@phys.ethz.ch).
